This report clearly shows the revenue and expenditure as at end of May 2021 comparing it with the approved budgeted amounts for the 2020/21 financial year per department, type and functional area.

The C Schedule is aligned with the municipality's cash flows as an internal tool on reporting on section 71 of the MFMA and assists the management to analyze and scrutinize their budgets versus income and expenditure and reflects on performance variances. This month report is an indication on each directorate performance against the SDBIP. The municipality should strive to pay suppliers within 30 Days to avoid interest payments. In terms of the MFMA s65 (2) (e) all creditors should be paid within 30 days and the municipality has failed to comply in this regard.

Almost 92% of creditors are electricity bulk purchases to the amount of R51million, Auditor General to the amount of R17 000 followed by other creditor of R6m at 8%.

These three add up to 100% of municipal total debt of R56m

The outstanding trade creditor balances would attract interest on the overdue accounts, which implies cash out flow that becomes fruitless and wasteful expenditure. The delay in the payment of trade creditors negatively affects the current ratio of the municipality.
